WILSOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS TUMORS

THE Preparator has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil which is nauseous to persons generally, is entirely obviated, and it can be taken by the most delicate female with pleasure. And as regards the benefit of this article over the clear oil the following case, by Prof Stone is sufficient to convince the most skeptical. The young lady was twenty-four years of age

Her disease was one of unmixed phthisis, which had been expected to terminate in the course of a few months fatally. The upper part of both her lungs were filled with tubercles, and in some places were beginning to soften. The case was evidently above hope. The treatment of Cod Liver Oil was at first used but without marked improvement. The Phosphate of Lime was then administered with them, and the result, as in the case of many others was soon apparent. The patient was rapidly getting well.

CAUTION—On account of the great reputation of this Compound for all lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him as he has the only receipt in the United States for combining the pure Oil with lime in a proper manner. Therefore as you value your health, purchase none except that manufactured by

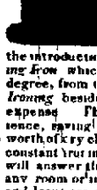
Admirable Invention!

PATENT SELF HEATING

SMOOTHING IRON!



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other mechanical contrivances. But females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron* which will relieve them in a great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor and despatch, one cent's worth of kerosene oil supplies fuel for a whole days' constant ironing. Hard wood can be used in the stove with answer the same purpose. It can be used in any room or in the open air. Batteries and Patent Irons are constructed upon the same principle and possess equal superiority

PROFESSOR ALEX. C. BARRY'S

TRICOPHEROUS,

or Medicated Compound,

FOR beautifying, improving, and preserving the Hair, curing cutaneous bruises and sprains, rheumatism, and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement, but as the thousands who purchase, use, and approve of it, have no ability to form an idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books and with them tenders his earnest and hearty thanks to his innumerable patrons

Professor Barry's accounts of sales for the year 1852, show that during that year about 910 000 bottles of his Tricopherous were disposed of, and that the cash product of the immense sale is nearly $100 000

This plain, unvarnished tale, is a better commentary on the value of the article than any thing its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c—it would not, of course, be so universally in demand. The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits

Sold in large bottles price 25 cents at wholesale and retail, at the manufactory and depot 137 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c

TESTIMONIALS

The following certificate from Mr John C Warren, of Boston, was given 17 years since but will last forever

BOSTON, Jan 5 1853.

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath—After some months of observation I find his work I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating to the variety of cases which occur, I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.

JOHN C. WARREN, M D.

The undersigned take great pleasure in recommending to the favorable consideration of those who are much afflicted with Hernia, Mr James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some five or seven years) and therefore speak from personal knowledge of his abilities. His early advantages for long experience in this business and the large number of individuals whom he has relieved in every variety of cases render him, in our opinion equal, if not superior to any manufacturer of the article. His father Ben Gideon Foster of Charlestown was master of the P or house in that town for upwards of twenty four years, during which period Mr Foster assisted himself of the opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and desperate character

It is well known to all who have occasion to wear a Truss, that the great excellence consists in its adaptation to the body at the same time relieving the patient. Any ordinary mechanic may make a Truss but none but a skilful practitioner can apply it in such a manner as effectually and oftentimes radically cure the complaint

Our experience has been such as that Mr Foster has thoroughly attained this knowledge. The certificate of Dr J C Warren and other eminent surgeons, which he has shown to us fully sustain the opinion we here express

New Method of Cure!

Has discovered a new method by which he is able to treat

All Diseases peculiar to Females,

with more success, and a cure can be accomplished in much less time than any heretofore practiced by any physician in New England

Dr Hatch's success has never been equalled in point of PRACTICAL UTILITY or SUCCESS, and how ever long an ailment may be or fruitless efforts may have proved the patient may confidently expect cure. Hundreds of cases might be referred to which would amply justify the above assertion

Consumption, Dyspepsia,

Diseases of the Spine, Liver, Heart, Kidneys, Larnyx, Bowels, Blood Skin all Nervous Diseases, Rheumatism and Scrofulous Swellings, Fever Sores, Hip Diseases, &c &c.

are relieved in an incredible short space of time, and with remedies which are in perfect harmony with the constitution

This great improvement in the cure of disease establishes a new era in medical science and all who are in any way afflicted should avail themselves of its advantages

We do not feel disposed to publish a long list of cures, for no man, no matter how illy prepared for the profession, but what can boast of effecting cures and procure certificates of irresponsible individuals but will give the opinions of editors who are conspicuous before the public

Prof J R Buchanan, in his Journal of Man, says Dr Hatch is a bold but liberal reformer. He is a graduate of the Eclectic Medical Institution, and is one of the most successful practitioners

Dr Hatch offers the most intelligent Physicians, and deserves special encouragement for his skill and rare disinterestedness.—*Christian Freeman*

The general tenor of a work such as Prof H has published, should result in much public good, and we trust it may meet with a universal circulation.—*Boston Daily Bee*

The New-York Tribune.

WEEKLY ENLARGED.

ON the 11th of last April, THE DAILY TRIBUNE, having completed its twelfth year was enlarged to more than one fourth or to the size of *The London Times*, making it considerably larger than any other daily paper published in the country or in the world. No change in price was made in consequence of this enlargement—the paper being still afforded to mail subscribers at $5 per annum, and sold to Carriers and to Agents ordering it by Express or Mail for distant sale at $3 50; the unbroken price, for $15 00 per thousand copies, payable in advance. At these prices, the aggregate receipts from our entire Daily edition fall short of the sums we pay for Paper alone, leaving all other expenses to be defrayed from our receipts for Advertising. In other words, we return to each purchaser of our paper his money's worth in the naked sheet, and trust to the new and of our own labor and the heavy expenses of Telegraphing, Correspondence, Reporting, Composition, Printing, Mailing, Book-keeping, Rent, &c, to our Advertisers alone. We do not think it now possible to cheapen newspapers beyond this point, and if it ever shall be hereafter, we intend to be even with the foremost in demonstrating the fact.

Our SEMI-WEEKLY, EUROPEAN and CALIFORNIA editions were enlarged simultaneously and equally with the Daily, and done with not any increase of price. We respectfully solicit a comparison of our Semi-Weekly at $3 per annum (the price present and past being $5, and ten copies for $20) with any $5 or $6 Semi-Weekly, and will cheerfully send copies for this purpose upon request or post paid application.

THE NEW-YORK WEEKLY TRIBUNE enters on its thirteenth year on the 1st of January next, when it will in the manner be enlarged to the size of the Semi-Weekly and Daily, adding more than one fourth to its capacity—but without increasing price. This enlargement will cost at least $20,000 per annum to our expenses, in addition to the previous cost of our Daily Enlargement already effected. All our edition will, from the 1st of September next, appear in entirely new and beautiful type, from a course of preparation expressly for this paper. Our Steam Cylinder Presses are not surpassed by any in the world. Even though our weekly edition will still be rapidly running up to 100 000 copies, we are prepared to print and mail every copy on the day (Thursday) that the form is put to press, without interrupting or retarding the regular issue of our three Daily editions, amounting to Twenty odd Thousand copies. We stand ready to add at any improvement which may be expensive which will enable us to disseminate intelligence more freshly and effectively, and shall especially hail as we take it to effect, a radical improvement in the celerity and reliability of the Mails.

THE TRIBUNE has not now its character to make or proclaim. It has not been and never can be a mere party organ. It has supported the Whig party because the distinctive principles of that party appeared to favor the great ends which ought to be sought by government, and it never advocated measures because it was proposed or sustained by the Whig party. It has let it all at all times as free to condemn and condemn principles and measures or recent acts should the two former be proponded or the latter perpetrated by Whigs as though they had nominated Polk for the Presidential candidate. In so far as Commerce, Industry, Education, Temperance, Internal Improvement and Industrial Development may be sub served by acting with the Whig party, it must continue to be, as it has been Whig.

Though never of, with any Abolition or other one idea party, THE TRIBUNE has and must be the friend foe of Human Slavery in all of whatever disguises regards Labor and obstructs the intellectual development of any portion of mankind. Were it able to persuade a vote in New York could abolish Slavery in Carolina, it might and should sell to some one of the expressly Anti Slavery parties lacking the light it declines to abandon the only place for the strife will be fought out. Republicans do not see its way clear to any effective political action against Slavery in the States which can now chiefly act in regards the defect of whatever effort to extend the giant wrong under the flag of our Union, or to obstruct by its power the progress of Slavery on to other lands, as among the most urgent and sacred of public duties, not to be subordinated to any party consideration whatever. And while it does not propose to make Anti Slavery the basis of Political action other than defensive it will neglect no opportunity, remit no effort so to diffuse light and truth as to render the continuance of Slavery impossible in a land transfused by the spirit of Christianity and boasting itself the great exemplar of Political Justice and law guaranteed Freedom.

For Temperance and all things but especially the disease of Intoxicating Beverages and the legal suppression of the Liquor Traffic, we shall struggle, as we have struggled, unflinchingly and unturning. We regard the Maine Law as essentially the most beneficent statute of our day, and confidently hope to see it soon prevail universally.

The Congressional Reports and Washington Correspondence will, as heretofore be both reliable and satisfactory.

The Markets for Grain, Cattle, Cotton and other products of the country, will receive proper attention and be reliably reported in THE TRIBUNE.

On our correspondence with the most important points throughout the world we and not here dilate. Of the fact that our associate BAYARD TAYLOR is now on the other side of the globe, sending us advices from the seat of war in China, and expectant soon to depart for our readers the physical, moral and social characteristics of jealously guarded Japan, the public is already aware. He will presently return by way of Australia and California, in both of which we have several correspondents. Briefly—we shall spare no expense to keep our readers well advised on every subject of interest, and doubt not that the same generous measure of patronage hitherto accorded to us will continue to repay all our exertions.

We rarely employ Traveling Agents, as so many impostors are habitually proving in the assumed capacity of solicitors for journals. We prefer that our subscribers shall pay their money to persons they know and of whose integrity they are assured. Any friend who believes he will do good by increasing the circulation of THE TRIBUNE is authorized to solicit and receive subscriptions, and on due proof that money has been mailed and post paid to our address, we take the responsibility of its safe transmission. Specimen Copies will promptly be sent without charge to those requesting them, and we trust many friends will be moved to ask their neighbors and acquaintances to join in making up a Club to commence with our Enlarged Sheet and New Type on the first of September, or at any time thereafter.

☞ A limited amount of space in THE WEEKLY TRIBUNE will be appropriated to Advertising.

☞ We obtained a glimpse for a short time last evening of a copy of a political electioneering hand bill, headed "The True Whig." It is probably the joint production of Daniel Sanborn, Isaac C. Haynes, editor of the Democrat, and Dudley Leavitt, as they were seen, we are informed, correcting the proof sheets! It is about such a document as these men, at the present time, would be likely to get up, professing to be whigs in order to draw away votes from the ticket nominated by the whig convention and thus to secure a triumph to Wild Cat Locofocoism.

A real whig and an honest one, will approve and vote for the nominees of the conventions of its party, if there be no fraud in the matter, and the candidates are worthy men. No convention was ever fairer than that recently held by the whigs, and there can be no objection to the character of the men. Those who oppose such nominations, thus made, are bolters from the party, and should be ashamed, and would be if they possessed a particle of honor, to steal the flag they have deserted for the purpose of promoting their piratical expedition.

The true and patriotic whigs of Penobscot are not to be drawn away from fidelity to their political duty and their principles by any of the wordiness, however intensified and superlative, of such piratical and selfish political leaders as the authors of this hand-bill. One week will show how little influence they possess with the intelligent freemen of Penobscot county, even though they fraudulently make use of the name of at least one candidate who has declined accepting any nomination.

The issuing of this malignant and foated hand-bill furnishes an occasion for dissecting the political character of its authors and God fathers, and their personal history in the politics of the county. This budget will be a rich one, and may be opened for the instruction and perhaps the amusement of the people.

Temperance Lecture on this evening.

Our citizens are to have an opportunity on this evening of listening to a lecture on Temperance by Rev. E. H. Chapin, one of the ablest and most eloquent orators of the country. His lectures recently delivered in this State have added greatly to the high reputation he had previously acquired as an original thinker, and a bold and eloquent advocate.—The subject of temperance is one which concerns humanity, and touches the sympathies of a warm hearted philanthropist like Mr Chapin, and intensifies his thoughts and impulses, and electrifies his speech, and imparts to it the true touch of eloquence. Under his treatment the subject seems new. Let him have a crowded house, and we cannot but express the hope under present circumstances, and the limited space in the City Hall, that the company may be mostly males.

Burglar and Fire Proof Safes.

We would direct the attention of our readers to the advertisement in another column of Henry Butler, Esq. who has established an agency in this city, for the sale of Marsland's famous Burglar and Fire proof safes. These safes have been very thoroughly tested in New York, and the press there have very generally spoken of their great merits. The house of one of our citizens was broken into on Monday night, and robbed of a gold watch and about one hundred and fifty dollars in money. We hear frequently of dwellings and stores being robbed in different parts of the country. These cases very forcibly suggest the propriety and necessity of being furnished with an iron safe, by which treasures and money, book and papers, are rescued not only from the hand of robbers, but from fire by fire.

Those in want of a good safe, and every man wants one who has not one, should call at Mr. Butler's place of business and examine the specimens he has for sale.

☞ We learn that the Orono Bank at Orono, has been organized by the choice of N. F. Allen, President; and E. P. Butler, Cashier. The bank will be ready to commence the transaction of business on the first of October.

Some of the New York papers give a very glowing description of the Crystal Palace by gas light, as it appeared for the first time. The lights were so disposed and so numerous, as to display the beautiful building in all its proportions, to its very dome, and all the variegated and beautiful contents of the palace to the greatest advantage. These, many of them at least, are said to appear even more attractive by gas light than by sun light. The splendid picture gallery was thrown open last week for the first time. The saloon extends from fortieth to forty second street, and is hung two or three deep with pictures; and the whole exhibition is now said to be so complete and beautiful as to demand universal attention and admiration

Request for Letters of Rev. Dr. Justin Edwards.

Those who have letters or documents which would throw any light on the life and character of Dr. Edwards, are respectfully requested to send them without delay, by mail or otherwise, to Mrs. Justin Edwards, at Andover, Mass, or to Rev Seth Bliss of the American Tract Society, 28 Cornhill Boston, or to Rev Dr Hallock of the American Tract Society, 150 Nassau-st., New York Letters which any may wish to retain, will in due time be carefully returned

☞ Celer P. says that the state of political affairs in Penobscot, so far as the whigs is concerned is just this, whether it is better to vote or one democrat and one freesoiler, and *elect* three whigs; or vote for five whigs and elect five loco focos, of the wild cat stamp, opposed to the Maine law The practical result, he says, justifies the action of the convention, and sanctions the ticket.

☞ Even foot passage across Kenduskeag bridge is now suspended, by the removal of the sticks We do not learn what length of time will elapse before foot passengers can be accommodated in passing the bridge, but if the inconvenience of a suspension of travel is appreciated, the authorities will provide an early day, a permanent, or at least a temporary walk. We think a temporary one would be best, as it may be a long time before the public is furnished with any other.

☞ City Marshal Farnham of this city has seized under the liquor law, eight thousand four hundred and forty three gallons of Liquors, and the most of it has been condemned and destroyed.

☞ Judge Hodgdon of the Police Court in this city, yesterday condemned eight hundred gallons of liquor, and ordered it to be committed to mother earth.

☞ There was a brief but a dark and severe thunder storm, accompanied by high wind and hail stones, in this city yesterday afternoon We do not learn that any damage was done in the city.

MEETING OF THE LEGISLATURE

On Saturday last, Gov. Crosby issued his Proclamation for a meeting of the Legislature on the 20th of September.

We hear but one opinion expressed in Portland as to the policy of completing the purchase of the Massachusetts lands, and that opinion is in favor of buying the entire interest of Massachusetts in said lands, and extinguishing her title and jurisdiction forever We trust there will be but one sentiment in this matter.

FIRE IN CALAIS

CALAIS, Sept. 5

Three dwelling houses and one large two story building, occupied as stores and dwellings, together with three barns, were destroyed by fire on Sunday morning The fire broke out about three o'clock, and was occasioned by one of two men who had got intoxicated and gone into one of the barns to sleep, where he endeavored to light his pipe with a match.—Both the men were so badly burned before they were rescued that they both died about one o'clock, that night. The loss of property is estimated at about $18,000.

NEW YORK, SEPT 5.

The brig Gustavus of Kingston, which arrived here to-day, from Aux Cayes was in charge of Mr. Philbrock a seaman, her late captain, Mr. Israel Snow, having died on the passage home of yellow fever, white the mate, Joseph Snow, and William Hamilton a seaman, died of the same disease at Aux Cayes. The brig is bound for Boston, but put in here for a navigator.

At Aux Cayes left schr. John Elliot, of Plymouth, for New York. Captain Thatcher and mate, Mr Johnson, have both died of the fever All the crew had left the vessel, and report that the fever is raging at Aux Cayes, and that large numbers have died.

A Danish brig was in port. Her crew have nearly all died of the fever.

NEW YORK, Sept 5

Amongst the recent victims of the epidemic at New Orleans, is T. S. Titcomb, of Boston, formerly an operator on the Boston and New York Morse telegraph line

Four old frame houses on Allen street, in New York, were destroyed by fire this morning Two men, named John and Richard King, perished in the flames.

Sufferings at Sea.

The Portland (Oregon) Times publishes a letter from Capt. Russell, written at Astoria, June 22 giving an account of the desertion from the Russian Fur Company, of three Swedes, who had been employed for three years in the service of the company at Sitka, on the Pacific. They took a canoe, and after a voyage of forty days reached Shoal Water Bay, where they were stopped by a fog. The letter says—

"When found, they had been in the bay seven days—subsisting on roots and berries They were much emaciated, and looked the perfect picture of misery and despair One of the poor fellows when found, had eaten the flesh off his hands and arms' Their canoe was about eighteen feet in long by three in width, and with this they have made a voyage of over one thousand miles on one of the worst parts of the coast. They were well cared for by the citizens, and at present are comfortably situated at Chinook."

The Quebec Morning Chronicle says, "The Americans want Cuba Canada is fast going to them. Our lumber goes to New York, our flour and cattle to Boston or Portland, our very steamships go to Portland in the winter—and it must be borne in mind that a commercial is the most solid of all political annexations — Canada is already part and parcel of the United States, and we are sorry for it. Nothing but a rush of immigration can save us. The tide of public opinion and of public power is against the tiers. Loyalty to Great Britain is on ebb."

EXPENSIVE ROBBERIES

OF FREIGHT TRAINS AND ARREST OF THIEVES.

A correspondent of the Boston Journal writing from Concord, N. H. says that for several months past, the Northern, Vermont Central, and Passumpsic Railroad Companies have missed articles of freight, conveyed on their transportation cars They have paid to the consignees from time to time considerable amounts for these losses, amounting in all to between two and three thousand dollars. Mr Stearns, the superintendent, suspecting that the articles were stolen, has been unwearied in his endeavors to ferret out the thieves. A few weeks ago, a boy was arrested on suspicion, but not being pretty evident that there was a gang of older rascals engaged in the business, he was discharged after making certain disclosures which it was believed would lead to their detection A strict watch was placed at several of the principal depots, which a few nights ago detected two boys, named Welsh and Pillsbury, while stealing from the cars at Franklin

After examination, they were committed to Merrimack county jail, in Concord, to await a trial at the October court. They implicated a man named Harrison Arlin, residing between Concord and Loudon. He also has been arrested and committed for trial. Upon searching his house, a large amount of stolen articles were discovered Among other things was a book and a quantity of tickets stolen some time since from the depot of the Boston, Concord, and Montreal Railroad at Meredith A number of pretences, and implements for breaking doors, were also found

Without any visible means of obtaining them, Arlin is said to have driven a span of horses about the country, peddling out articles for sale. His wife's wardrobe is also said to be more extensive than that of our "upper ten Several men in Concord and the neighboring towns claiming to be respectable, are reported to have been among his principal customers.—Several other men and boys are suspected of being Arlin's accomplices It is supposed they have entered the cars in the night time and taken out articles of merchandise, while they were under way, and dropped, for accomplices to pick up and secrete Arlin and his wife have both been arrested and examined

Scarcity of Silver Coin.

Mr D'Israeli, a celebrated English writer assigns the following reasons for the present scarcity of silver coin It is, in our opinion the true cause of the present pressing deficiency in silver coin among us

First, while the annual production of gold has quadrupled, the yield of the silver mines has remained stationary, and, as the influx of gold has given an immense expansion to business of all kinds, and increased the demand for every commodity, silver being no more plentiful now than formerly, has become proportionately scarce

Secondly, in Holland, and some other European States, silver is the standard of value; and hence the excess of exportation to those countries over the importation from them, has to be paid for in silver coin

Thirdly, and chiefly, in India gold coin is not known among the natives from whom the commodities of commerce are purchased, nor is gold in that country a legal tender, and as the excess of Indian exportation over importation is exceedingly great there is an enormous drain of silver from Europe and America, to pay for the excess. In the year 1852, England alone sent fifteen million dollars in silver to India

STUDENTS DO YOU HEAR THAT?—The editor of the N. Y. Express says:

Looking the other day upon a thousand students and graduates of New Haven, where as much attention is given to physical education as elsewhere we suppose we were struck with the apparent physical weakness of a vast majority of those who were visiting their Alma Mater. You can tell a clergyman not more easily by the shape of his neckcloth and cut of his coat, than by the tone of his complexion Pale and wan, either with the burden of study or thought, they looked to us peculiarly American, and were physically very weak There are plenty of exceptions to the rule, but put all the clergymen together and you would rather be reminded of the race of Pigmies than the Giants It is so, though in less degree, with gentlemen of the other learned professions, and a literary man, or professional man, who is strong and robust, with nature's vermilion in his cheeks, and elasticity in his step, is rather a rare bird to find, whether upon the wings as a traveler or caged to his study

Fast living, the free use of tobacco, and too little bodily exercise, are regarded as the principal cause of this general physical inferiority Professor Silliman aged 74, is pronounced the most athletic and healthy man seen at the great gathering of literary men

DEAR WOMAN IN PARAGUAY.—The author of 'Sketches in Paraguay,' gives us this fragrant morsel

'Every body smokes in Paraguay, and nearly every female above thirteen years of age chews. I am wrong They do not chew, but put tobacco in their mouths, keep it there constantly, except when eating, and instead of chewing roll it about with their tongues and suck it Only imagine yourself about to salute the rich red lips of a magnificent little Hebe arrayed in satin and flashing with diamonds—she puts you back with one delicate hand while with the fair, taper fingers of the other, she draws forth from her mouth, a brownish black roll of tobacco, quite two inches long, looking like a monstrous grub, and depositing the savory morsel on the rim of your salute I have sometimes seen an over delicate foreigner turn with a shudder of loathing under such circumstances, and get the epithet of el salvaco (the savage) applied to him by the offended beauty for his sensitiveness However, one soon gets used to this in Paraguay, where you are, per force of custom, obliged to kiss every lady you are introduced to, and one half you meet are really tempting enough to render you reckless of consequences, and you would sip the dew of the proffered lip in the face of a tobacco battery, even the double charged honey dew of Old Virginia.

The Northern Pacific Railroad surveying party are now encamped at Camp Cushing, near the mouth of the Yellow Stone. The three sections into which the party was divided came together at that point by different routes The Republican learns that a report of the survey to the far has been forwarded to Washington, that the prospect is that the survey will be complete, and he report laid before Congress by next February. The Republican further states that they are in receipt of private information which will satisfy Congress and the country that this route is impracticable.

Santa Anna has infused more energy into the Mexican government than has ever been manifested before. He is building roads, punishing robbers, and for the first time for many years, shows the Mexicans a government which they are obliged to obey. His movements are benefiting the country, all of them, excepting perhaps, that which is consolidating a powerful and well disciplined army. He is arraying a powerful army, which, if he is disposed to quarrel with the United States Government, will give us no little trouble He is said to have an army of ninety two thousand men, and is training and arming them in a skillful manner.

The Baltimore Exchange says it is mentioned as a new and unusual feature in the flour trade, that a demand for it has come to us from the Mediterranean a part of the world from whence we at one time received supplies.

A late number of the Galway (Ireland) Packet states that the emigration mania is daily gathering strength in the whole of the western counties, and adds that "it is melancholy to see the hale and stalwart land thus flying away just at a time when it might be supposed sufficient employment could be obtained at home But not even the certainty of constant employment, and the high wages which agricultural laborers must receive in the gathering in of the approaching harvest, can induce the Irishmen to remain at home.'

The New York Sunday Atlas states that Joseph Gutman, one of the oldest established custom house brokers, has been missing for some days. He has left deficiencies to the amount of between fifty and a hundred thousand dollars, which the importers and the banks will lose The New York Mirror says, "it is also rumored that a distinguished politician, financier, sportsman, and so-forth, left last week in the Cunard steamer, without bidding good-bye to his family or friends."

LEGISLATIVE WISDOM A member of the last Connecticut legislature, from one of the rural districts, not a hundred miles from New London, who was less remarkable for the profundity of his knowledge than the overweening confidence with which he advanced his opinions upon any and all subjects, was asked by a fellow-member of a somewhat quizzical turn of mind, what he deemed the proper punishment for *arson*. "Well," said he, with an air of profound deliberation, "I have thought on that subject a good deal, and have come to the conclusion that he should pay a fine of *five hundred dollars and marry the gal!*"

EARD LABOR The son of a gentleman recently appointed to an office in a custom house in Essex county, Mass, a lad of less than seven years, was sent home by his school mistress with a note to his parents that he had been a bad boy Upon his return the next day, the school marm inquired it his father read the note? "Yes marm," replied the boy "Did he whip you?" asked the teacher "No marm responded the child, "he come home from the custom house *so tired* that he could not attend to it" That boy must be one of 'em, a queer joker, and deserving of a year's salary for his ready wit.—Newburyport Union

It is stated in the New York Evening Post, that Mr N G Norcross of Lowell, known as the "timber king," has purchased the stumpage, and cutting, on five hundred and sixty thousand acres of land on the Ottawa river in Canada A few years ago he bought one hundred and forty thousand acres near the sources of the Merrimack, river, and is now about to enlarge his business.

The following is from the principal accountant of the wealthy and highly respectable house of Messrs. Voris & Roy, of this city and presents one of the MOST WONDERFUL CURES in the annals of medical history

Mr H G Farrell—Dear Sir Actuated by a sense of gratefulness I submit the following as an instance of the utility of your great medicine. My child, three years old, was suddenly attacked with a terrible disease which in less than six hours prostrated it in total helplessness. The limbs became so rigid that not a joint could be bent the flesh turned black and cold and entirely deprived of feeling, the eyes fixed, partially closed, and altogether bird following this was deafness to all sounds the spine became contracted, and so curved that when lying on its back the head and heels only touched Indeed, the child presented every appearance of being dead Immediately on the attack the family physician was called in, and for three weeks he labored to restore it to feeling but all in vain, although it was blistered a dozen times, and various inefficient liniments applied A consultation of physicians was then held, but to no purpose the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctor then told me he could do nothing more. We then commenced applying your Liniment freely over the entire length of the spine, and you may imagine a parent's joy, when, after a few applications, returning animation was apparent, and it rapidly recovered with the exception of the sight, which did not become perfect for near a month. The child is now healthy and robust as can be For other cases of the same kind occurred previously in my neighborhood, all of which died, when there is no doubt if your Liniment had been used they would have recovered

A HARD LUMP ON A HORSES BREAST

Mr H G Farrell—I have used your Arabian Liniment with gratification in several cases, the most remarkable of which was a large lump that appeared on my horse's breast It was very hard, appearing to be hard gristle. It remained for nearly a year, when I applied your Liniment, once bottle of which entirely cured it. I can recommend it as the best Liniment I ever used

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. H. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 37 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the Initial H. G. before Farrell's name—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by R. F. Kinsell, Oldtown. French & Hamilton, Dexter Geo. Parcher, Ellsworth. E G Blakely, Foulton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good references as to character, responsibility, &c.

Those who desire to obtain a thorough knowledge of the true principles of Penmanship, and correct business-like way of executing the same, are reminded that MR. SCRIBNER, who has been instructing some eight or nine hundred scholars in this city within a few weeks, with remarkable and gratifying success, will on Monday next form new classes at his room on Harlow street. His system is natural and easy, giving clear illustration of the art, and imparting a uniform, graceful and distinct style of writing. Therefore, considering the worth of ready skill in the art, we say to old and young, patronize the school, and out word for it you will be repaid at your improvement.

ATWOOD'S ALCOHOL,

PATENTED AUGUST 16th, 1853.

THE undersigned having purchased the exclusive right to manufacture this Alcohol for a portion of the United States, respectfully offered to furnish it to the trade generally He would call the attention of dealers to the following certificate

JOHN L GERARD,
Boston, Sept 3, 1853 No 17 Long Wharf

We have made a chemical examination of the Alcohol manufactured in the usual way, by the new process invented by Mr Luther Atwood, which has for its object the removal of fusiol and other odorous bodies, which exist in common Alcohol

Our comparisons were made with the best 'Cologne Alcohol, by exposing the samples to the action of them chemical agents, and the result was, that while we found Cologne Alcohol to be impure, the Alcohol of Mr Atwood's process was perfectly free from the oils and other bodies and more nearly pure than any other Alcohol manufactured in the large way

It is admirably adapted to medicinal and pharmaceutical purposes the preparation of perfumery, and for other uses, in which anodynous alcohol is required

We regard Mr Atwood's method as an important improvement in the manufacture of Alcohol

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, *WASHINGTON.*

No. 22 State Street, . . Boston.

IMPORTANT INFORMATION TO INVENTORS! The subscriber (late Agent of the U. S Patent Office, under the Act of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS [instead of twenty, as paid each by others] will be remitted by him in case of failure to obtain a patent; and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all persons trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY, *Solicitor of Patents.*

During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office

EDMUND BURKE,
Late Commissioner of Patents.

BROKEN China, Glass, Earthen, Ware, and Fancy Articles, of every description repaired and mended, making it as strong as before broken, without injuring its appearance.

This Cement, which has been proved to be of great strength, will be found particularly useful in every family; the simplicity of its application is alone a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass, China, &c., is extraordinary, no ordinary degree of heat affecting it, and at the joints are scarcely perceptible, articles of this kind may be made useful for years, which otherwise would have been cast away.

McFARLAND'S BURGLAR and FIRE PROOF SAFES!

A FEW of these celebrated Safes have arrived from New York, and those who are in want of a superior article, which has been severely tested for the last ten years, in every county, are invited to call and examine them. Read what the *New York Press* say of them in regard to the late great fire in New York. Further comment is unnecessary.

[From the Journal of Commerce, of August 27th.]

"*Mesars.* B. F. Pond & Hitchcock, of 56 Water street, oil merchants, inform us that their Safe, (one of McFarland's Fire Proof,) at the great fire of the Pearl st House, although exposed for thirteen hours to the combined effects of burning houses and other Oils, and a broken Gas Pipe direly underneath it, preserved their books and papers in the most perfect order. They were not injured in the least manner."

[From the New York Evening Mirror, of Aug. 27 h.]

McFARLAND'S SAFES AT THE GREAT FIRE OF THE PEARL STREET HOUSE.—Looking at the ruins of this great fire yesterday, we noticed in Water street several of McFarland's Safes, which were being taken out of the ruins, the insides of which were all in good order. One of them in particular deserves especial notice. It belonged to Messrs Pond and Hitchcock, oil merchants, No. 56 Water street, and was exposed to the very hottest part of the fire, being covered with burning oil and spirits, and directly under a broken gas pipe from which the gas was escaping in large quantities, and producing an intense heat. It remained in this fiery furnace for thirteen hours, and we are informed by Mr. Pond, the owner, that, when opened, his books and papers were found to be in a perfect state of preservation, not even being scorched, and hardly bearing the smell of fire, thus proving itself a perfect salamander. Every merchant should examine them and convince himself of their fire-proof qualities, as some half dozen owners of the same make were in the fire, and every one preserved its contents from the least damage.

[From the New York Tribune of August 30th.]

The reputation of McFarland's celebrated Fire Proof Safes have lost nothing at the last great fires, as usual preserving their contents uninjured, and saving many thousands of dollars for their owners. These safes have built for themselves a colossal reputation, and are adding to it at every fire. McFarland's motto is "Excelsior."

[From the New York Herald of Aug. 25th.]

Another convincing proof of the superiority of McFarland's Fire Proof Safes over all others as a protection against fire, is the Safe which can now be seen at the ruins of the great fire on Tuesday night, at the Pearl st House, where it was exposed in the oil store of Messrs. Pond & Hitchcock, No 56 Water st, for thirteen hours to the combined effect of burning oil and spirits. Books and papers inside were not even scorched.

☞ These Safes are for sale at No. 49 West Market Square, Bangor.

The Best Pills in the World.

HARDY'S FAMILY VEGETABLE CATHARTIC PILLS are the best that can be found in any country for Jaundice, and all Bilious troubles, Dyspepsia, Colds, Rheumatism, and every complaint in which the stomach or bowels need evacuation or regulating. Yankees have boasted the unequalled skill and talent for every thing that the human head can devise or hands execute; why, then, turn with admiring and confiding eyes towards every new medicine with a foreign name? Yankees can, and do, beat all creation in every thing they attempt. Then discard your Mustang, Kangaroo, Ichneumon, Hyena, and all other such heathenish medicines, and call at Hardy's, No 3 Harlow's Block, where you will find, not only the best Pills, but the best Medicines in existence "for all the ills that flesh is heir to," (except lean pockets) and the best Horse and Ox Medicines besides. Remember,

Great Excitement!

Among Carriage Makers,

THE subscribers have purchased the right to make, use and sell

Everett's Patent Coupling

for the Counties of Penobscot, Piscataquis, Washington, Hancock, Washington and Aroostook. The advantages of the above Coupling, over the old method of connecting the main part of the Carriage with the front part, is such that it must come into general use when it is properly understood. High forward wheels can be used, and we get rid of the goking irons, as the wheels do not strike the body, and the carriage turns in a very small compass, the hind wheels not describing more than 4 to 5 feet circle. It is perfectly simple, and not so liable to get out of order as the old method. Those who have used the above are fully satisfied of its utility, as certificates below show. It can be attached to old carriages at a small expense, and we are prepared to sell the right for shops, towns, and would sell a part of the above named Counties at such a rate that any smart man, with a small capital, could realize a great profit from the sale of the above. Any person wishing information will receive immediate attention at our place of business, or by dropping us a line by mail, post-paid.

We have leave to refer to Messrs I. B. Norcross, Chase & Littlefield, and C. S. Coe, Esq., who are using the same. D. W. MORRILL & CO.

DR. MORSE'S INVIGORATING CORDIAL

FOR GENITAL DEBILITY IMPOTENCY CONTINUANCE OR NOCTURNAL EMISSIONS &c The astonishing success which has attended this valuable medicine, for *Loss of Muscular Power, Physical Lassitude* and *General Prostration*, from the consequences of youthful indiscretion or excess in the prime of life in upper years is the highest valuable preparation ever discovered, in fact an remedy for the above complaints it is the greatest and purest of all Cordials There is no other reliable remedy for any thing has authentically received the sanction of the Medical Faculty The WONDERFUL RESTORATIVE PROKUCTION of which this medicine is composed has been in use in this city for years in the hospitals and nurseries of the factory of London Paris and the chief cities of Europe as well as by eminent Physicians in this country It is the only reliable remedy for NERVOUS HEAD and MIND COMPLAINTS—the manly physique and high spirit and energy of mind is once restored to those who have lost the same by MIND DISEASES It will remove all nervous debility, DEPRESSION EXCITEMENT, incapacity to transact business, loss of MEMORY CONFUSION of thought Self Destruction, fear of insanity, &c It will restore the appetite renew the health Pimples will have destroyed it by Sensual Excesses, or evil practices It has been said by some that these disorders were incurable &c were incurable This however is not the fact

DR MORSE'S INVIGORATING CORDIAL has and is constantly during these complaints relieving the mental and bodily incapacity of the unfortunate sufferer as the following certificate from the surgeon received will conclusively show

Dr Woodward of the Massachusetts State Hospital writes of one of his patients he received by using the cordial thus—It gives me pleasure to inform you that the unhappy patient to whom I received one of your Cordial, He is in the high spirits and in good health since he commenced taking it, before he had two or three weeks When he appeared to me says Dr W I thought it hardly possible for him ever to regain his full strength I prescribed the usual medicine used in those cases in the hospital, but they had no effect In the mean time he procured one of your Cordial which has effected a cure I am sure no other medicine would I shall ever recommend it wherever I meet with a case

The nature of the medicine relieves by the Cordial are generally such as to leave the public satisfied of certain cure out of the question and it is proper to could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but I firmly based upon the positive and apparently more salutary virtues in all diseases are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation And it is equally potent for many diseases for which it is recommended

THE MEDICAL JOURNALS

have not in a single instance that has been authenticated, given their sanction to any other preparation for the above complaints It has in many violent and desperate cases effected radical cures after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character

THE COMMON EXPRESSION

Of those who have used this Extract is—I had heard your Cordial highly spoken of, but was one of the incredulous until I found to the merits have tried various medicines sold for the same purpose, to no avail Sarsaparillas without deriving any benefit I had almost given up all hope of obtaining relief when I purchased some of your Cordial I had not finished the whole of its benefiting me—but I have I feel stronger have had no emissions since, although it is not three weeks I am satisfied the half a dozen bottles I now will cure me

Another says—"I have consulted several distinguished physicians. Some said I could not be cured others prescribed this thing and that, but I found no relief until I procured some of your Cordial I must say it completely cured me"

Another says—"I was surprised at the effect your Cordial had Why had I not heard of it before? It would have saved me so much expense and so long years of mental and bodily suffering

CAUTION—Ask for Dr Morse's Cordial and take no other, as those have worthless imitations of this unrivalled excellence fame and popularity, have brought into the market. It will not hurt the most delicate Female but do good Beware of all other Cordials, &c, (sold by only this)

NOTICE. Persons consulting of physical inability from causes above name may confidentially consult D Morse personally or by letter (post paid) at his office 76 Beekman street, Boston The necessary advice and medicine for the speedy removal of such disability will be safely forwarded to the writer's address

Dr M is prepared to warrant a perfect cure in every case or take no pay

Prepared by Dr Morse M D, New York city

It is put up in pint bottles, with the words Dr Morse's Vigorating Cordial, blown on the glass Price $1 per bottle 6 bottles $5, 6 bottles $10, and $24 per dozen

NEVER FAILING REMEDY

Holloway's Ointment.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING.

Copy of a Letter from Mr Thompson Chemist, Liverpool dated August 20, 1852

To Professor HOLLOWAY:

Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has so confined every person acquainted with the sufferer About ten years ago Mr W Cummins of Sidney Street in this town was thrown from his horse, whereby he received very serious injuries, he had the best medical advice at the time and was afterwards an inmate of different infirmaries yet he grew worse and at length a malignant running ulcer settled in his hip which so completely crippled him that he could not move without crutches for nearly 10 years recently he began to use your Ointment and Pills which have now healed the wound strengthened his limbs and enabled him to dispense with his crutches so that he can walk with the greatest ease and with renewed health and vigor (Signed) J THOMPSON

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE WHEN ALL MEDICAL AID HAD FAILED

Copy of a Letter from Mr Hird Draper of Keady near Gain b'o' dated March 1st 1852

To Professor HOLLOWAY

Sir—Some time since, one of my children was afflicted with dreadful eruptions over the body and limbs I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered hopeless At length I tried your Ointment and Pills and without exaggeration the effect was miraculous for by perseverance in their use all the eruptions quickly disappeared and the child was restored to perfect health

I previously lost a child from a similar complaint and I firmly believe had I in her case adopted your medicines she would have been saved also I shall be happy to testify the truth of this to any enquirer (Signed) J HIRD Draper

CERTAIN REMEDY FOR SCORBUTIC HUMORS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE OF A BAD LEG

Copy of a Letter from Messrs Walker and Co Chemists Bath

To Professor HOLLOWAY

Dear Sir—Among the numerous cures effected by the use of your invaluable medicines in this neighborhood we may mention that of an old lady living in the village of Peaston, about five miles from this city She had ulcerated wounds in her leg for many years and vainly tried every known remedy with alarming extent as to defy all the usual remedies her health rapidly giving way under the suffering she endured In this distressed condition she had recourse to your Ointment and Pills and by the assistance of her friend was enabled to persevere in their use until she received a perfect cure We have frequently heard the old lady speak of the effect produced upon her leg (above 70 years of age We shall be happy to apply any enquiries as to the authenticity of this really wonderful case, either personally or by letter

A private in the Bath Police Force also has been perfectly cured of an old sore in the office from which he had suffered for years, after all other means had failed The cure has been entirely by the use of your Ointment and speaks loudly in its praise

We remain dear Sir Yours faithfully

April 6, 1852 (Signed) WALKER & CO

The Pills should be used in family with the Ointment in most of the following cases

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff Joints	Sore throats
Bunions		Skin diseases
Bite of Mosquitoes and Sand flies	Elephantiasis	Scurvy
